Preface

This document is intended for contributors who .

For a list of other BriteTest documents and the BriteTest repository layout, see the BriteTest Documentation Guide.

For a glossary of terms, see the BriteTest Glossary Reference.

Document Version History

Document	Runner	Test	Date	Comment	Author/Editor
1.0	1.0.0	1.0.0	2026-06-11	Initial version.	Paul Sinclair

- The **Document** column records the document's version with the format **M.u** (Major, update).
- The **Runner** column records the BriteTest Runner API version current at the time this document version was published and is defined by its `LT_RUNNER_VERSION` macro.
- The **Test** column records the BriteTest Test API version current at the time this document version was published and is defined by its `LT_TEST_VERSION` macro.
- Both Runner and Test use the version format "**M.m.p**" (Major, minor, patch).
- **M** is the same for the Document, Runner, and Test versions.

The document's update version tracks released updates to this document and does not correspond to a minor or patch version. **u** increments when document changes are published in a release without a change to **M**, and it resets to 0 when **M** is incremented.
